Tips of the Month

NEW PRODUCTS FOR YOUR HOME

We recently made our annual trek to the International Builders Show (IBS) for a look at the latest and greatest in building products and technology. This year's event was especially exciting as it was paired with another major building industry event – the Kitchen and Bath Industry Show (KBIS). Over 1,700 exhibitors showcased exciting products in more than 650,000 square feet of combined convention floor space.

LESS IS MORE WITH NEW CHOICES IN HOME VENTILATION

Panasonic Ventilation released the new WhisperGreen Select ventilation fans. Two base fan models employ plug-and-play technology, to customize a fan to your specific needs. The fans' integral 'pick-a-flow' switch selects the airflow strength. Both models have three levels of flow, ranging from 50 cubic feet per minute (CFM) to 110 CFM on one model – the other offering 110 to 150 CFM. So, if you have teenagers that take long, hot showers or you have a bigger than average bathroom, you'll want greater CFM capacity. For a small powder room, the smallest setting should be adequate. These fans can be equipped with energy efficient LED lighting, a condensation sensor that keeps the fan running until moisture has been removed, and a motion sensor that will turn the fan (and optional night light) on and off when the space is occupied or vacant.

GREAT LOOKING GARAGE DOORS THAT LAST A LONG TIME

Garage doors can account for up to 40 percent of the curb appeal of your home. Clopay showed off its Canyon Ridge Collection made of durable, low-maintenance faux wood composite that mimics the look of natural wood. If you live in a part of the country where temperatures are extreme, Clopay's new 2" Intellicore insulation with a thermal break offers an R-value of 20.4. That will keep your garage more comfortable

and help manage your overall heating and cooling costs. Carriage-House style doors with decorative black wrought iron hardware are the rage. Optional windows add a decorative element and provide natural light to an otherwise dark garage. clopaydoor.com

MAKING YOUR CONCRETE BEAUTIFUL

Quikrete showcased their hot, new line of concrete and masonry stains and sealers. The product line consists of etching, translucent and penetrating stains that can transform tired, worn concrete into a decorative finish with warm earthtones and rich colors that can highlight natural variations in concrete. Quikrete concrete and masonry sealers are water-based products that repels water and protects against staining. They can be used on concrete, masonry, brick, pavers and stucco. Quikrete also rolled out its new and improved 2-Part Epoxy Kit Garage Floor Coating, with everything you need to beautify your garage floor with a durable and easy-to-clean finish. Available in gray and tan. quikrete.com

Ask the Carey Brothers a home improvement or remodeling question on their live radio broadcast every Saturday from 9:00 a.m. to 1:00 p.m. Eastern Time. Call toll-free at 1-800-737-2474 to ask your question.
